**INTERCHANGEABLE BATTERY SYSTEM**

# Cordless POLE PRUNER

for safe and fast wood cutting

- Centre extension pole allows for a useable length of between approx. 2 to 3 metres, providing an overhead reach of up to 4.5 metres

- Soft grips for added comfort and control in use

- 18V battery: battery power provides the freedom of a cordless product with no danger of cutting cord

- 18V slide-pack battery interchangeable with other 18V Black & Decker® cordless products

### What are the main reasons for pruning?

- Safety – weakened or stray branches can cause injury or damage to property
- Health – removing branches can encourage new and stronger tree growth
- Aesthetics – trees can be shaped to enhance their character
- Access – branches may cause obstacles hindering access
- Scenic – overgrown or stray branches can impair views across your garden and beyond

### Why use the 18V Pole Pruner?

- 18V Pole Pruner is the fast, effective way to trim hard to reach branches overhead
- Cordless Freedom with no danger of cutting cord
- 18V Slidepack battery has the power to deliver up to 100 x Ø 3.5cm cuts
- Provides an overhead reach of up to 4.5 metres

### When to use the 18V Pole Pruner

- The optimum time to prune branches is dependent on the species of tree
- Typical times include the dormant winter months, or, for the less hardy trees, during the late summer months – often after flowering

Remember not to disturb nesting birds. It's prohibited under the Wildlife & Countryside Act 1981 to damage or destroy nests of any wild bird in use or being built.
